

Exercise Northern Alliance

Interoperability Montana's Northern Tier Exercise 2011

Target Dates for the exercise are 12-17 June 2011

Functional Exercise

Functionality improvements provided by the exercise:

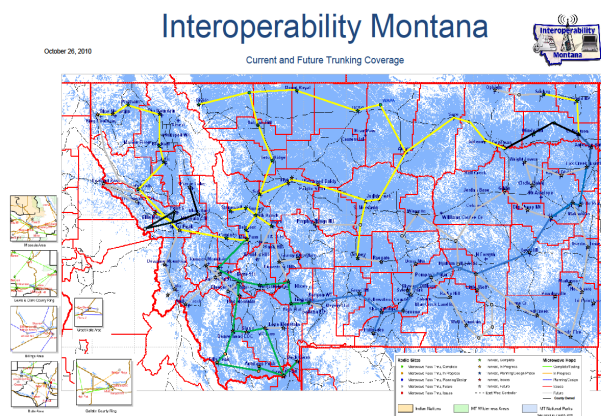

- **Validation of communications SOPs**
- **Training with the new radio system**
- **Exercise of EOP**
- **Implementation of Mutual Aid**
- **Procedure test of regional communications**
- **Provides an after action /improvement plan**

The exercise will follow the HSEEP recommended exercise procedure and operations

- ▶ **Northern Alliance is a functional exercise that involves all counties and jurisdictions within the Northern Tier.**

The exercise seeks to provide an effective event based training exercise that test the ability of the first responders in the NT to effectively use the trunking radio system .

Objectives to be developed are

1. Ability to use system within jurisdictions and disciplines (talk groups)
2. Ability to use system with mutual aid partners
3. Ability to use system regionally (county to county)
4. Ability to use system with state and federal partners on system
